

XeneX SOCaaS

With over 12 years of experience and focus on Security Operations Center as a Service (SOCaaS), XeneX delivers a unique cybersecurity solution and unparalleled 7/24/365 SOC experience.

XeneX's software development team continues to extend the capabilities of XeneX platform. A leading industry platform, XeneX integrates several cybersecurity tools to achieve a single pane of glass of cybersecurity for the enterprise.

XeneX security analysts receive extensive training on the XeneX platform and must complete certification before joining the SOC team.

7/24 Threat Detection & Response

Highlights

- Timely Threat Detection
- Reduced Dwell Time
- Faster Incident Response
- Continuous Protection
- Compliance and Regulations
- Minimized Business Disruption
- Prevention of Data Breaches
- Threat Intelligence
- Adaptation to Sophisticated Threats
- Proactive Security
- Enhanced Incident Investigation
- Improved Incident Recovery

XeneX 7/24 threat detection and response provides continuous monitoring, detection, and response to security threats and incidents around the clock, 24 hours a day, 7 days a week. XeneX emphasizes the importance of maintaining a constant and vigilant stance against potential cyber threats to ensure that an organization's systems and data are adequately protected.

In the context of cybersecurity, XeneX "detection" phase involves actively monitoring network traffic, system logs, and other data sources to identify any unusual or suspicious activities that could indicate a potential security breach. The "response" phase involves taking appropriate actions to mitigate and contain the threat once it has been detected, such as isolating affected systems, investigating the incident, and implementing measures to prevent further damage.

Our Vision

Continuously invest in technology, people and process improvements to deliver the most comprehensive cybersecurity technology platform and world-class white glove service for incident management. To be the leading SOCaaS, protecting our partners and customers, and helping them achieve their cybersecurity goals.
