Highlights

XeneX SOC for AI Security

Discover. Govern. Protect.

As AI becomes part of everyday business operations, organizations need visibility, control, and protection to safely embrace its benefits. XeneX SOC helps organizations secure AI usage across users, applications, and data.

Discover

Identify approved and shadow AI applications, understand how AI is being used across the organization, and uncover potential risks before they become security incidents.

Govern

Establish and enforce AI usage policies that align with business objectives, compliance requirements, and security best practices while enabling innovation and productivity.

Protect

Prevent sensitive data exposure, unauthorized AI interactions, and emerging AI-driven threats with real-time monitoring, policy enforcement, and 24x7 SOC oversight.

With XeneX SOC AI Security, organizations can confidently adopt AI while maintaining security, compliance, and operational control.

Enable AI Innovation with Confidence.

Customer Benefits

- Safely adopt AI across the organization
- Reduce data loss and compliance risks
- Eliminate shadow AI blind spots
- Protect intellectual property and sensitive information
- Improve security visibility and control
- Strengthen regulatory and audit readiness
- Enable employee productivity without sacrificing security
- Leverage XeneX's 24x7 expert SOC and AI-driven threat detection
- Simplify AI security management through a single platform
- Gain confidence that AI innovation is aligned with business and security objectives

Key Functionality

Discover

- Identify approved and shadow AI applications
- Monitor AI usage across users and departments
- Discover sensitive data shared with AI platforms
- Gain visibility into AI-related risks and trends
- Generate executive and compliance reporting

Govern

- Define and enforce AI usage policies
- Control access to approved AI applications
- Restrict high-risk AI activities and behaviors
- Support compliance and regulatory requirements
- Establish responsible AI governance frameworks

Protect

- Prevent sensitive data leakage to AI platforms
- Inspect prompts, uploads, and AI interactions
- Detect risky user behavior and policy violations
- Block unauthorized AI applications and activities
- Provide 24x7 SOC monitoring and threat response

Our Vision

Continuously invest in technology, people and process improvements to deliver the most comprehensive cybersecurity technology platform and world-class white glove service for incident management. To be the leading SOCaaS, protecting our partners and customers, and helping them achieve their cybersecurity goals.
