

From Alert Overload to Autonomous Protection in 10 Seconds

The Agentic SOC Playbook for SMB & Middle Market

40ms DETECTION Millisecond AI Correlation	10s RESPONSE Autonomous Containment	10.8M EVENTS/HOUR 700+ Connectors, Single Pane
---	---	--

THE PROBLEM: Traditional SOC is Failing Middle Market

- **\$4.88M** average breach cost (IBM 2024), 10% YoY increase
- **267 days** avg to identify (194) + contain (73) - IBM
- **70-90%** SOC alerts are false positives (IBM/Verizon DBIR)
- **70%** teams overwhelmed, **25%** time wasted (Ponemon)
- **66%** can't keep up with alerts (SANS 2024)
- **43%** attacks target SMBs; **60%** go out of business in 6 months
- **4.8M** more pros needed; 5.5M working; gap +19% YoY (ISC2 2024)
- **69%** suffer alert fatigue with 10+ tools (Orca)

THE XENEX SOLUTION: Agentic SOC-as-a-Service

- xenexFoundation** - Proprietary cloud platform with **xenexXDR Engine**
- Cross-layered real-time detection, heuristic + AI Intelligence
 - **700+ connectors** - Azure, AWS, M365, on-prem, hybrid
 - Technology agnostic, API support, multi-tenancy
 - **AI acts in 40ms, responds in 10s** - isolates endpoint, disables account, blocks IP
 - **White Glove xenexTEAM** validates every AI incident
 - You get only what matters - zero false positives to your team
 - Weekly summaries + Monthly exec reviews + Dedicated CSM
 - 1-hour critical incident SLA, 4-hour deployment

Platform vs Service - The XeneX Uniqueness

	Typical Competitor (Sells Platform)	XeneX (Delivers Service & Outcome)
Tech	Resells 3rd party tools	Owns xenexFoundation + xenexXDR end-to-end
Model	Shared responsibility, you manage	Full accountability, we own tech/service/outcomes
Pricing	EPS / data ingestion - unpredictable	Transparent per source - predictable
Deploy	Weeks/months, rip-and-replace	4 hours, coexists with existing stack
Proof	Alert overload	Zero breaches 10+ years, 10/10 TrustRadius, 5.0 G2

Ready for a Proof-of-Value? See it work in YOUR environment in 4 hours. No rip-and-replace. Insurance-ready docs, compliance-ready reporting (HIPAA, PCI, FERPA, CMMC, NIST).
